- Gems and Jewellery Export Promotional Council (GJEPC)
- TRACTOR KARVAN
- Mortgage Market

PROFILE

Enthusiastic Software Engineer skilled in designing, developing, and optimizing web and software applications. Proficient in programming languages like PHP, JavaScript, and frameworks such as Laravel and React. Experienced in collaborating with cross-functional teams to deliver scalable and efficient solutions. Passionate about solving complex problems, eager to learn new technologies, and driven to enhance user experiences through innovation.

WORK EXPERIENCE

Gray Matrix   APRIL 2024- DECEMBER 2024

Associate Software Engineer

- Developed and maintained dynamic websites using Laravel Lumen for backend services, ensuring efficient RESTful API integration and data management.
- Utilized React.js to create responsive and interactive user interfaces, improving overall user experience and engagement.
- Collaborated with cross-functional teams to gather requirements, design software architecture, and implement features based on user feedback.
- Participated in Agile development processes, contributing to sprint planning, daily stand-ups, and retrospectives to drive project success.
- Managed version control using Git, ensuring smooth collaboration and code integration among team members.

Crayon Infotech   June 2023 - April 2024

Software Engineer

- Developed and maintained robust web applications using PHP and Laravel, improving application performance and scalability.
- Designed and implemented RESTful APIs in PHP for seamless integration with frontend applications and third-party services.
- Leveraged PHP frameworks such as Laravel and CodeIgniter to streamline development processes and reduce project timelines

Infoway   June 2022 - December 2022

SOFTWARE ENGINEER INTERN

- Interned as a PHP Developer, proficient in building multiple modules using the renowned CodeIgniter framework.
- Through this experience, I gained invaluable insights into effectively managing the challenges faced by newcomers, enabling me to thrive under pressure. My primary focus involved developing a construction website that streamlined the development process for builders, fostering a deeper understanding of the intricacies of the industry
